

## Corporate Clinical Care Guidelines

Guideline: Chronic Obstructive Pulmonary Disease

Initial Approval Date: January 2007

Revised/Approval Date: March 2009

Status: Revised

References/Sources: Global Strategy for the Diagnosis, Management and Prevention of Chronic Obstructive Pulmonary Disease 2008. Global Initiative for Chronic Obstructive Lung Disease.

Approved By: QI/UM Committee

The guideline provides useful, general information. Whether the guideline should be employed as an aid in treating any specific patient is a matter best determined by the practitioner involved in the assessment of that patient's condition, taking into account all relevant aspects of that patient's medical history and condition.
