

Corporate Clinical Care Guidelines

Guideline:	Pediatric Obesity
Initial Approval Date:	March 2009
Revised/Approval Date:	March 2009
Status:	No Revisions
References/Sources:	American Academy of Pediatrics, Overweight and Obesity, Policy and Guidelines
Approved By:	QI/UM Committee

The guideline provides useful, general information. Whether the guideline should be employed as an aid in treating any specific patient is a matter best determined by the practitioner involved in the assessment of that patient's condition, taking into account all relevant aspects of that patient's medical history and condition.
