

## Corporate Clinical Care Guidelines

Guideline:	Respiratory Illness in Children and Adults
Initial Approval Date:	April 2009
Revised/Approval Date:	April 2009
Status:	No Revisions
References/Sources:	Diagnosis and Treatment of Respiratory Illness in Children and Adults, National Guideline Clearinghouse
Approved By:	EQIC Committee

The guideline provides useful, general information. Whether the guideline should be employed as an aid in treating any specific patient is a matter best determined by the practitioner involved in the assessment of that patient's condition, taking into account all relevant aspects of that patient's medical history and condition.
