

  
Unison  
HEALTH PLAN  
Provider Billing Alert

**Subject: In-Office A1C testing**

**Scope: All Unison Health Plan Products**

**In an effort to help increase provider awareness of an in-office test that could help your diabetic education, we are providing the following information for your review. Patients often go for their lab tests weeks after their appointments, delaying results which affect treatment and patient education. Using in-office testing will allow you to obtain rapid results to make necessary medical changes and provide face to face health education to your patients.**

**A1C Now+ Overview**

Metrika's A1CNow+ monitor delivers fast, accurate A1C test results in just five minutes. Patients no longer have to wait for lab results or schedule follow up visits.

**Fast**
