Annual Recognition

Unison Health Plan will recognize Gold Star Providers at a yearly event at which time a financial bonus will be awarded to each practice that successfully completes the program. The financial bonus will be distributed to those practices who maintain the criteria plus defined membership levels.

How am I doing?

Unison Health Plan will distribute quarterly updates to the provider profile to ensure that practices know the status of their performance. The Unison Team is committed to work with providers to achieve success.

Unison Gold Star Providers

PAY FOR PERFORMANCE PROGRAM

*“You mean that you’re
going to pay me well,
make my life easier
and give me a bonus...
Why wouldn’t I participate?”*

Unison Participating Provider

Leadership in Public Sector Health Care Programs

Goal

The Unison Gold Star Providers Program:

- **Recognizes** participating physicians who provide quality healthcare services to our members;
- **Relieves** providers from paper work (reduces prior authorizations requirements); and
- **Rewards** excellence by thanking our physicians for doing what they do best.

The expectation is that providers who successfully complete the program will add additional Unison members to their panels.

Providers Benefit

- Unison recognizes providers for delivering quality healthcare service to our members.
- Unison reduces the requirement for prior authorization of designated services for our members.

Who can participate

All primary care providers (PCPs) will be considered for enrollment in the program.

The program builds on:

★ Strengthening the relationship between Unison and our participating providers

The practice must have a minimum of 200 members in Unison products.

★ Accessibility to care for Unison Health Plan Members

The practice must be accessible to Unison Health Plan members by maintaining an open panel as demonstrated by the number of members per 1000 seen in the emergency room.

★ Effective health care delivery and promoting best practices

The practice must demonstrate provision of efficient service, which is reflected in the medical loss ratio.

★ Quality of Care

Benchmarks must be achieved from the Unison Practitioner Profile. The clinical indicators reflect quality service to members.

★ Administrative Efficiency

Submitting claims electronically. Unison is continually focused on improving on efficiency and accuracy of payments.

PCP Participation Criteria

National Requirements:

- Membership
- Medical Loss Ratio (MLR)
- ER Visits per 1000
- Electronic Claims Submission

State Specific Requirements: (Quality of Care Measures)

- EPSDT completion rates
