

Provider Billing Alert

Unison MedPLUS+

Menactra

Please be aware that the vaccine Menactra is now covered under the Pennsylvania Vaccines for Children (VFC) Program for 11 and 12 year olds. Effectively immediately, UnisonMedPLUS+ will no longer pay for the provision of the vaccine for children of these age groups.

Unison MedPLUS+ will continue to pay fee-for-service for children of other recommended age groups as a self-referred service, until the PA VFC program coverage expands to additional age groups.

If you have any questions, please contact Provider Services at 1-800-600-9007.

Thank you in advance for your cooperation.
